Prize giving 8.30pm

Prizes:

Team prizes
Winners will receive CHF Perpetual Trophy
Front nine team
Back nine team
Longest drive Ladies & Gents
Nearest the pin Ladies & Gents

Our Cause!

In 2016, to further cement Cappagh's renowned reputation as a leader in innovative orthopaedic surgery and to ensure that state-of-the-art facilities are available for all its patients, the Foundation gave a significant undertaking to raise the €500,000 cost of purchasing **Navigation Assisted Software for Spinal Surgery**.

Scoliosis is an extremely debilitating and deforming condition that most commonly develops during adolescence. At this most vulnerable time of life, the condition has significant physical and mental impact for patients. Corrective surgery can be life-changing for the patient and while often extremely successful, is not without risk, resulting in devastating complications. The development of this service in Cappagh is a first for Ireland and will benefit many adolescents suffering from Scoliosis. It will allow surgeons at Cappagh to undertake complex spinal surgeries safely and with dramatically reduced risk, providing increasingly better outcomes for patients in reducing curvature of the spine and restoring patient height. By facilitating safe, accurate and effective surgical correction of deformity, the trauma and physical morbidity of this process will be avoided.

This life-changing equipment was installed at Cappagh in late 2016 and the first surgical procedure took place in early 2017. Thanks to the success of our 2016 fundraising campaign, the Foundation has already provided almost 50% of the €500,000 funding required and has ambitious plans to complete this commitment in 2017. We need the support of kind people like you to make it happen.

“Not long ago I struggled to breathe or exercise as my ribs were crushing my lungs. Following corrective Scoliosis surgery in Cappagh Hospital my life has changed. I can do anything now!”

Ciara Brewer (aged 16 years, Scoliosis patient)

CHF Corporate Golf Classic Booking Form
